TABLECLOTHS AND TABLE SKIRTS

Our tablecloths are “made-to-order,” so you never have to worry about having the right size, shape or color. Call us and we’ll help you determine the correct size for your customer’s table. We’ll do our best to accommodate your request as quickly as possible.

To order custom sized tablecloths, we will need the exact dimensions of the table (width and length) and the length drop that is requested (we recommend 10-12 inches). If the tablecloth is to fall to the floor, the height of the table is required as well. Please contact us for a quote or with any questions. It would be our pleasure to help you.
